Department of FL – Paymaster Report

Activity since September has slowed tremendously. With the completion of more than 85 percent of the renewals being accomplished the transmittals are mostly catching up with delinquent members and adding new members. Keep the new members coming!

After receiving several incorrect transmittals and having to return them or call for corrections, I developed a quick guide and which I sent in a letter to all detachment paymasters. Hopefully, it will reduce the number of returns.

In addition to preparing the financial results for the Spring Conference and the June Convention I will be reviewing our actual expenses against our planned budget to assist us in setting the budget for the next physical year.

Respectfully submitted,
